

Education *Re-imagined*

Maria Marinho
&
Martin Dixon

Can we use our experiences of teaching during the Covid pandemic to help children with medical and mental health needs?

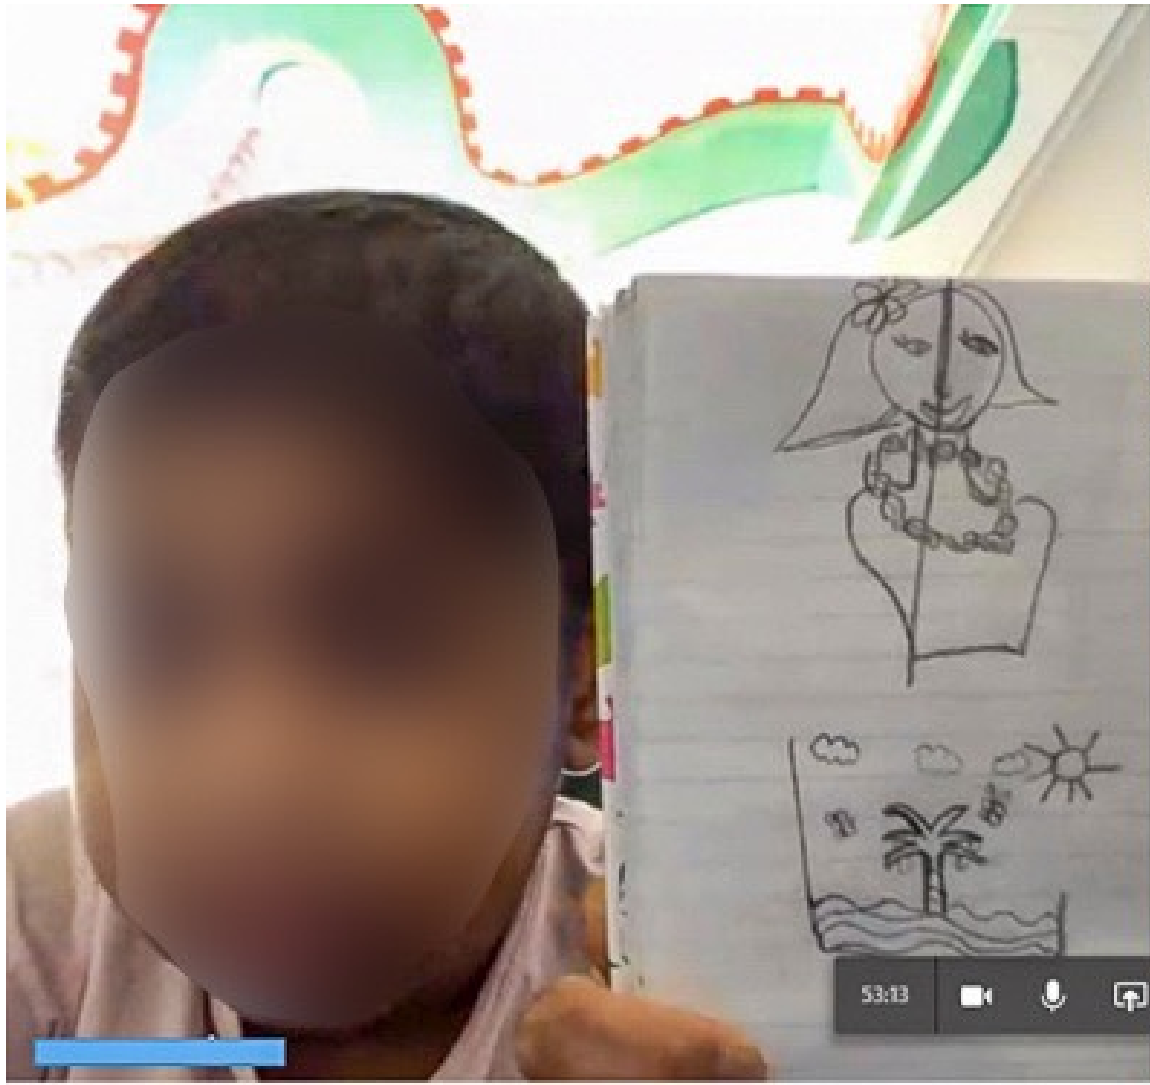

How did your school change or adapt its teaching during the Covid pandemic to make sure your pupils could still access learning?

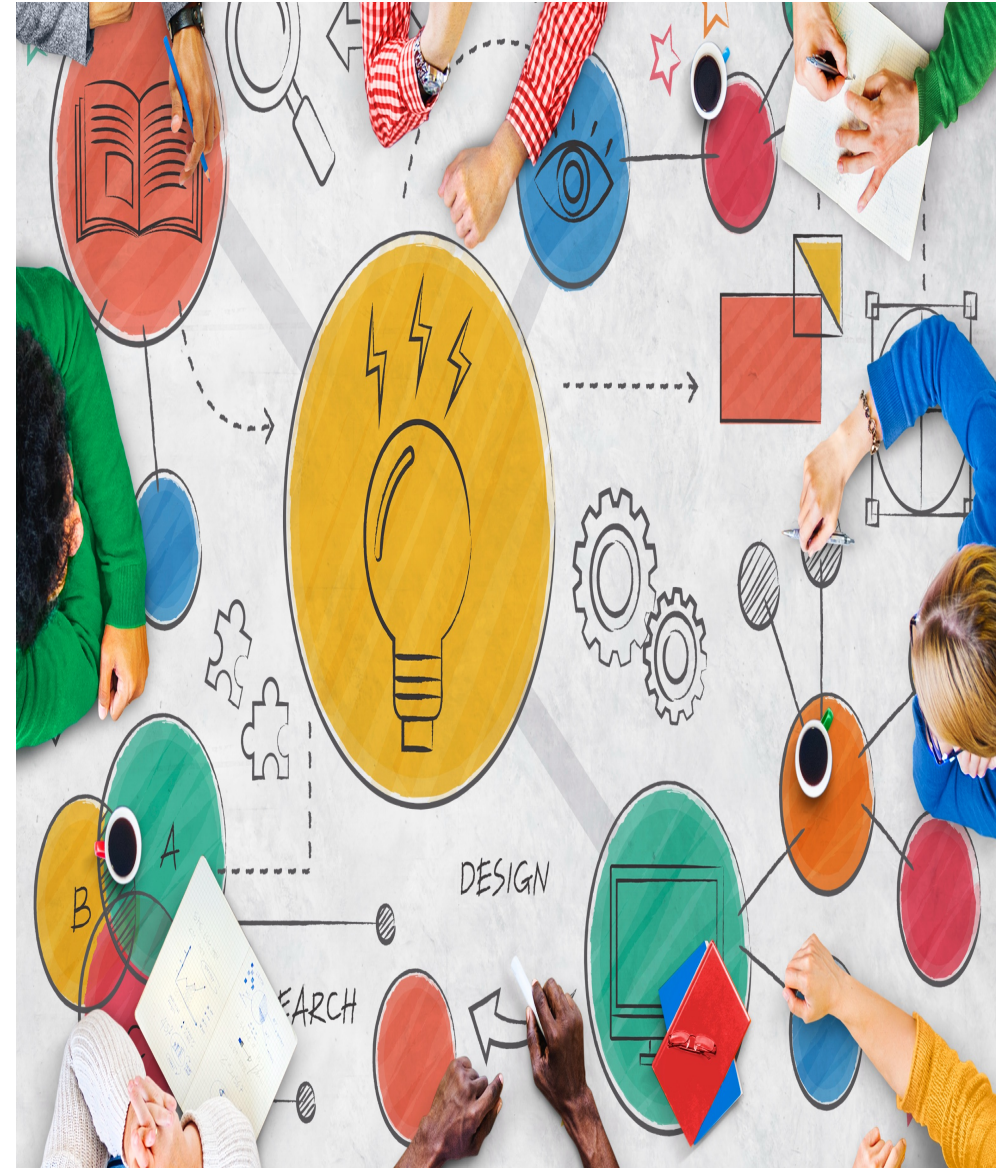

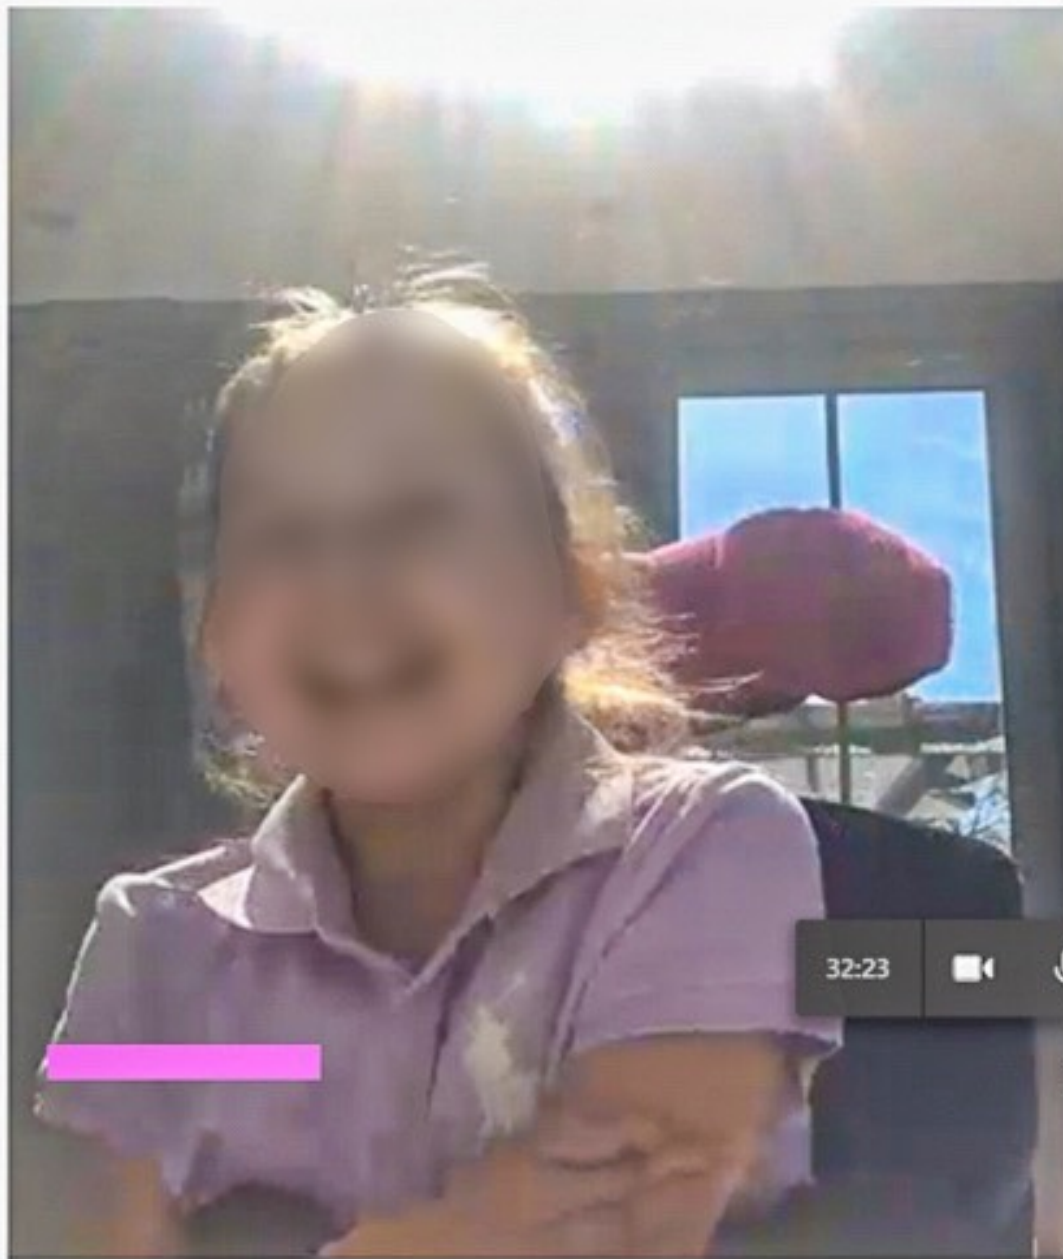

How could we *re-imagine education for children with medical and mental health needs*, using your experience of teaching during the Covid pandemic?

- Online / remote learning
- Professional development
- Developing resources
- Pedagogy
- Student / family health and wellbeing
- Use of technology
